You get 7-15 hi-res stock photos & images for free life-time usage.

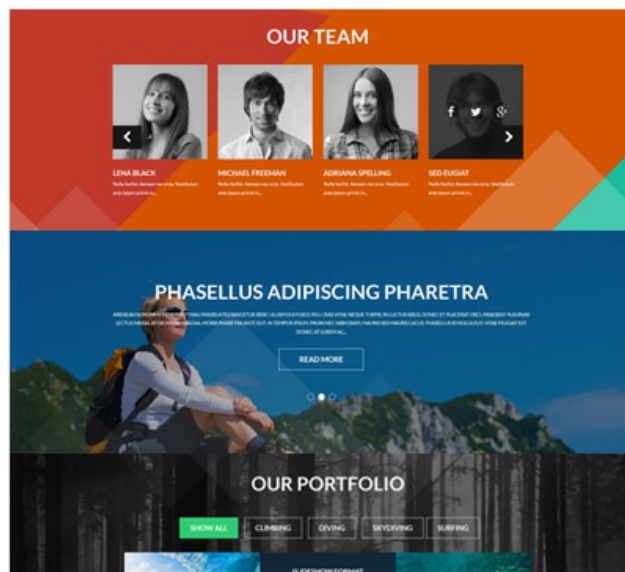

Satisfaction Guarantee

You will be completely happy with our products and services.

Parallax Effect

This bodybuilding web template combines a thought-out structure , contrasting color scheme and responsive layout , which will let you create an effective website skin. Large images dominate in its layout to engage visitors visually, while legible Google fonts take good care of their reading experience. Red backgrounds are spiced up with polygons adding an extraordinary touch to the visual appeal of the theme. By means of a filterable gallery , you can categorize your images and make it easier for visitors to browse through them. What's more, you can easily adapt the template's default version to your taste thanks to its customizability .

MARCELO B.

March 08, 2016

Very easy for use and adaptive; I use for freelancer and the template is very good; I liked responsive templates.
