Rana Daggubati Bodybuilding photos for Bahubali 2

Actor Rana Daggubati published two photos, offering a glimpse of his chiseled body to be featured in Baahubali: The Conclusion.

Actor Rana Daggubati, who is seen playing Bhallala Deva in Baahubali (Bahubali) movie series, said he lost more than 15 kg of weight to the younger version of his role in Baahubali: The Conclusion. Rana Daggubati took to his Twitter handle this morning to share some pictures with his supporters. The images offer a glimpse of his chiseled body built for Baahubali: The Conclusion. In addition to displaying images, he also wrote: "Here is the new and for me !! #BiggerMeanerStronger @BaahubaliMovie with improved @KunalGir."

It is the cake for Rana Daggubati to lose and gain weight for his film roles. "The older Bhallala is stronger and sturdier, so I weighed about 108-110 kg for parts in both films. His younger version is also high, but thinner. So I lost a few kilos for that . My weight dropped to 92 -93 kg now," said Rana IANS.

Daggubati says he was training for two hours per day over the past five months to get in a form suitable for his role in the sequel, "I shuttle between cardio and weight."

Rana Daggubati trainer Kunal Gir, a sports nutritionist, monitors the diet of the actor, who consumed foods high on carbs and

protein and oil. "I eat every two hours and a half ago a nutritionist present around the clock. It performs regular checks to ensure that we are on the right track," he said.

Rana Daggubati has almost completed filming his parts Baahubali director SS Rajamouli: The conclusion, which is scheduled to be released movie theaters worldwide on April 28, 2016. Fans of Daggubati eagerly awaiting a glimpse his eyes in the second installment of the series Baahubali films.
